Re: Petition for Rule Making
Yale, Oklahoma - Channel 297A

Dear Mr. Crawford:

I am writing in response to your petition for rule making requesting the allotment of Channel 297A at Yale, Oklahoma, as that community's first local aural broadcast transmission service. To accommodate the allotment of Channel 297A at Yale, Oklahoma, you further request the downgrade of Channel 295C, Muskogee, Oklahoma, Station KHTT-FM, to Channel 295C0.

Your allotment proposal is not acceptable, because an application for a construction permit for Channel 295C at Muskogee, Oklahoma, was granted to Renda Broadcasting Corp. of Nevada on February 22, 2007. **See** File No. BPH-20051014ADW. For that reason, your allotment request for Channel 297A at Yale, Oklahoma, cannot be granted.

Based on the above, we are returning your petition for rule making. You may resubmit a petition for an FM channel allotment at Yale, Oklahoma, provided that you make a showing that a fully-spaced transmitter site is available that provides city grade coverage to the entire community.

Sincerely,

John A. Karousos

Pursuant to 47 C.F.R. 1.401, Charles Crawford
r spectfully petitions the FCC to institute a Rule laking
proceeding to amend the FM Table of Allotments to add
Channel 297A to Yale, Oklahoma.

Petitioner respectfully submits that the public interest would be served by allocating Channel 297A to Yale, Oklahoma **as** that community's first local FM service. Yale is an incorporated community with a population of 1,342 people.¹ Yale has its own mayor, its own schools,² public library,³ fire department,⁴ City

² Yale Public School District, 315 E. Chicago Ave., Yale, Oklahoma 74085. (918) 387-2434.

Hall," post office,' police department' and a number of local churches. Yale is a community that is certainly deserving of a local FM service. "Local radio stations play an important role in their communities, providing local news, information and entertainment to residents, and generally serving as good corporate citizens in the local community life. This is particularly true in smaller towns, where the radio stations are limited in number. Yet there are still rural areas of our country that do not have even a local radio station.'" The proposed channel **297A** will provide additional diversity and an outlet for local self-expression to Yale residents and therefore is in the public interest.

In order for Channel **297A** to be allotted to Yale, Oklahoma, station KHTT Channel 295C at Muskogee, Oklahoma must be reclassified to a CO. (See, Attachment A, Request to Reclassify Statement)

Attached hereto is a channel study confirming that Channel **297A** can be allocated to Yale, Oklahoma,

consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (~~See~~, Attachment B) Note: the petition to add Channel 297A at Cushing, Oklahoma was dismissed per FCC letter dated May 6, 2005. (See, Attachment C) Reference coordinates for Channel 297A at Yale, Oklahoma are:

36 0 54 N
96 40 45 W

Should this petition be granted and Channel 297A is allotted to Yale, Oklahoma, Petitioner will apply for Channel 297A at Yale and after it is authorized, will promptly construct the new facility.

The factual information provided in these Comments is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford

Petition for Rule making
FM Channel 297A
Yale, Oklahoma
May 25, 2005

Attachment A

**Request to Reclassify
Station KHTT(FM), Muskogee, Oklahoma
Pursuant to MM Docket 98-93**

Radio Station KHTT(FM), Muskogee, Oklahoma is licensed to Renda Broadcasting Corporation of Nevada, 900 Parish St., 4th Floor, Pittsburgh, PA 15220, (Facility ID 55704), I C File No. BLH 19820914AJ. The Facility operates with a power of 100 kilowatts with an antenna of radiation 30 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Charles Crawford respectfully requests that the license of Radio Station KHTT(FM) be modified to specify operation on FM Channel 295C0 instead of on FM Channel 295C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

Charles Crawford, the proponent of Channel 297A at Yale, Oklahoma in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KHTT(FM) as a Class C0 facility. Charles Crawford certifies that no alternative channel is available for the service he proposes at Yale, Oklahoma as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on Renda Broadcasting Corporation of Nevada, as is required in the above Docket.
